Time & Timetables: Medium Practice Paper 2 Answers

Q#	Answer	Explanation
1	E	The sailing leaves at 08:40 and arrives at 10:15. From 08:40 to 10:15 is 1 hour 35 minutes.
2	D	The sailings take 1 hour 35 minutes, 1 hour 30 minutes, 1 hour 40 minutes and 1 hour 25 minutes. The quickest is the 17:45.
3	C	The 11:05 has already gone, so Maya waits for the 14:20. From 11:20 to 14:20 is 3 hours.
4	B	From 13:40 to 15:15 is 1 hour 35 minutes: one hour takes you to 14:40, then 35 more minutes reach 15:15.
5	E	One hour is 60 minutes and three quarters of an hour is 45 minutes, so together that is 60 + 45 = 105 minutes.
6	A	The hour hand is between the 5 and the 6, so the hour is 5. The minute hand points at the 5, and 5 × 5 = 25 minutes. The time is 5:25.
7	A	September has 30 days, so 3 days take you from the 27th to the 30th. That leaves 10 − 3 = 7 more days into October, which is 7 October.
8	D	105 minutes is 1 hour 45 minutes. From 19:20 to 21:05 is 1 hour 45 minutes.
9	B	Count 40 minutes back from 16:10: 10 minutes takes you to 16:00 and 30 more to 15:30. Checking forwards: from 15:30 to 16:10 is 40 minutes.
10	C	Two hours is 2 × 60 = 120 minutes, and adding the extra 5 gives 120 + 5 = 125 minutes.
11	B	Adding 12 minutes each time gives 10:18, then 10:30, then 10:42. Three trains later is 3 × 12 = 36 minutes after 10:06.
12	B	From 08:45 to 15:20 is 6 hours 35 minutes: six hours take you to 14:45, then 35 more minutes reach 15:20.
13	D	The last date shown is 31, and it sits in the column headed Thu, so the month ends on a Thursday.

14	C	There are 24 hours in a day and 7 days in a week, so 24 × 7 = 168 hours.
15	D	Just after midnight the 24-hour clock uses 00, which stands for 12 o'clock at night. Times before midday are am, so 00:35 is 12:35 am.
