English Spelling: Easy Practice Paper 3 Answers

Q#	Answer	Explanation
1	C	'choclate' should be spelled 'chocolate'. There is an o in the middle that is easy to miss: cho-co-late. The mistake is in group C.
2	A	'cheif' should be spelled 'chief'. There is no c immediately before the two vowels, so it is i before e: ch-ie-f. The mistake is in group A.
3	D	'stoped' should be spelled 'stopped'. Stop ends in a short vowel and a single consonant, so the p is doubled before -ed: stop + p + ed. The mistake is in group D.
4	B	'usefull' should be spelled 'useful'. The ending -ful is spelled with one l when it is added to a word: use + ful. The mistake is in group B.
5	E	Every word here is spelled correctly. Their meaning belonging to them is spelled with the i first, and excited has a c before the i. So there is no mistake in this sentence.
6	C	'brekfast' should be spelled 'breakfast'. It is made from break and fast, so break is spelled in full. The mistake is in group C.
7	A	'climed' should be spelled 'climbed'. Climb keeps its silent b, as in comb and thumb, and the b stays when -ed is added. The mistake is in group A.
8	D	'citys' should be spelled 'cities'. A noun ending in a consonant and y changes the y to i and adds -es: city becomes cities. The mistake is in group D.
9	E	Every word here is spelled correctly. Knocked keeps the silent k of knock, as in knee and knife, and opened needs only one n. So there is no mistake in this sentence.
10	B	'haveing' should be spelled 'having'. Have ends in a silent e, and that e is dropped before -ing: hav(e) + ing gives having. The mistake is in group B.
