Time & Timetables: Easy Practice Paper 5 Answers

Q#	Answer	Explanation
1	B	The hour hand is between the 1 and the 2, so the hour is 1. The minute hand points at the 7, and 7 × 5 = 35 minutes. The time is 1:35.
2	A	The hour is bigger than 12, so take 12 away: 14 − 12 = 2. Times after midday are pm, so 14:05 is 2:05 pm.
3	C	Find the Football row and read across to the Ends column. It shows 16:55.
4	B	Chess runs from 15:30 to 16:45. From 15:30 to 16:45 is 1 hour 15 minutes.
5	C	Chess lasts 1 hour 15 minutes, Art lasts 1 hour 20 minutes and Football lasts 1 hour 30 minutes. The longest is Football.
6	E	The minute hand points at the 6, which is 30 minutes past the hour. The hour hand is between the 11 and the 12, so the time is half past 11.
7	C	It is 10 minutes from 08:50 to 09:00, then 35 more to 09:35. From 08:50 to 09:35 is 45 minutes.
8	D	There are 60 minutes in an hour, so 4 hours is 4 × 60 = 240 minutes.
9	A	Morning times on a 24-hour clock have an hour smaller than 12. Only 07:30 does, so it is the morning time.
10	C	Read down the Sat column: the 3rd, 10th, 17th, 24th and 31st. That is 5 Saturdays.
11	B	Add the hour first to reach 11:25, then add 20 minutes to reach 11:45. From 10:25 to 11:45 is 1 hour 20 minutes.
12	D	Two weeks is 2 × 7 = 14 days, and adding the 3 extra days gives 14 + 3 = 17 days.
13	B	Change them all to minutes: 100, 90, 120, 105 and 95. The smallest is 90 minutes, which is 1 hour 30 minutes.

14	C	April has 30 days. Counting 7 days on from the 26th: 27, 28, 29, 30, then 1, 2 and 3 May. So the date is 3 May.
15	E	Two minutes is 2 × 60 = 120 seconds, and adding the extra 30 gives 120 + 30 = 150 seconds.
