Time & Timetables: Hard Practice Paper 4 Answers

Q#	Answer	Explanation
1	E	EZ118 is scheduled for 10:10 and is 1 hour 5 minutes late. From 10:10 to 11:15 is 1 hour 5 minutes.
2	A	The real departure times are 10:00, 11:15, 11:20 and 13:25. The earliest of these is 10:00, which is FR201.
3	A	EZ118 really leaves at 11:15 and BA77 leaves on time at 11:20. From 11:15 to 11:20 is 5 minutes.
4	B	Los Angeles is behind, so take 8 hours off 16:00. That gives 16:00 − 8 hours = 08:00 in Los Angeles.
5	D	A day is 24 hours, so the fraction is 9 out of 24. Dividing both numbers by 3 gives 3/8.
6	C	From the 1st to the 25th is 24 days. Since 24 = 21 + 3 and 21 days is exactly 3 weeks, the 25th is 3 days after a Wednesday, which is a Saturday.
7	D	Twelve minutes is 12 × 60 = 720 seconds. Dividing by the time for one bucket gives 720 ÷ 40 = 18 buckets.
8	D	The two delays add up to 2 × 25 = 50 minutes. From 10:40 to 11:30 is 50 minutes.
9	C	The fifth train is 4 gaps after the first, which is 4 × 35 = 140 minutes, or 2 hours 20 minutes. From 05:50 to 08:10 is 2 hours 20 minutes.
10	B	From 23:15 to 07:05 is 7 hours 50 minutes: 45 minutes take you to midnight, then 7 hours 5 minutes more reach 07:05.
11	C	November has 30 days, so 15 days remain after the 15th. December adds 31 days and January adds 4, giving 15 + 31 + 4 = 50 days.
12	C	Three showings take 3 × 105 = 315 minutes and the two gaps add 2 × 15 = 30 minutes, making 345 minutes, or 5 hours 45 minutes. From 10:00 to 15:45 is 5 hours 45 minutes.

13	A	The deliveries are on the 4th, then the 18th, and the next would be the 32nd, which does not exist. So the last one this month is the 18th.
14	C	They beep together after a number of minutes that divides by both 12 and 16. The smallest such number is 48, so from 14:00 to 14:48 is 48 minutes.
15	A	From 07:00 to 19:00 is 12 hours. The breaks total 3 × 20 + 45 = 105 minutes, which is 1 hour 45 minutes, and 12 hours − 1 hour 45 minutes = 10 hours 15 minutes.
